Repeatability: ± 20% of set point RPM at constant ambient temperature. Speed Ranges shown in table are for horizontally mounted switches. If switches are to be vertically mounted, consult factory. Switch contact may be set for either increasing speed or decreasing speed operation. However, the differential speed is non-adjustable and subject to mechanical tolerances.

MAXIMUM CONTACT INTERRUPTING RATINGS					
TYPE OF CONTACT	A.C. 35% P.F.			D.C. Inductive	
	120v	240v	480v	125v	250v
Snap Action A.C. Type	1.5	0.75	-	0.07	-

NOTES

- (1) Enclosures meet NEMA standards for protection against lint, dust, seepage and spraying of water, oil or coolant. For NEMA 1, 3, 5 and 13 applications.
- (2) Contacts are factory calibrated at minimum ascending RPM unless otherwise specified on customer's purchase order.
- (3) Contact symbols are shown with switch at rest and viewed from the rear.

Prices are subject to change without notice.
